disinfection

"maggots"

by miki chambiki
www.feek.com

disinfection, disinfection
disinfection, we clean with perfection
disinfection, disinfection
is the one, is the essential action.

after excessive bashes
the place in dust and ashes
you long for cleanliness
for fumigation, no more, no less

disinfection, disinfection
disinfection, we clean with perfection
disinfection, disinfection
is what we love, what we do for you

1

we only work sterile, aware of the peril
we are alert to - all kind of dirt, uh!

every material we make abacterial
we are alert to - all kind of dirt, uh!

a simple blood splatter, is just minor matter
we are alert to - all kind of dirt, uh!

and stains of mould fungus, definitely not with us
we are alert to - all kind of dirt, uh!

2

So we mop the floor, and we wipe the door
we simply do it - insiders' hot tip

and we make sparkling clean, as you have never seen
we simply do it - insiders' hot tip

for you we'll set the scene in a light silky sheen
we simply do it - insiders' hot tip

maybe you start to sing, it's like a second spring
so simply do it - insiders' hot tip

bridge

no chance for nasty germs, labeled in various terms
all with that toothy grin saying "we're free from sin"
your time is up, my dears, no need to end in tears
so now please say "bye bye", and duckies so will I.
